

AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

Claims 1. – 12. (Canceled).

13. (Currently amended) A ~~The telephone of claim 11, further comprising: that~~
manages integrally stored telephone data, comprising:

a memory that stores telephone data related to at least one of incoming and outgoing
telephone calls;

a public list containing public telephone data is accessible to all users during operation of
the telephone;

a personal secret access code entry device that enables a user of the telephone to enter a
personal secret access code, wherein access to said stored telephone data is limited to said public
list containing public telephone data, until such time as the user enters said personal secret access
code, and after entering the personal secret access code, the user has access to said public
telephone data contained in said public list and to a private list containing private telephone data
that is associated with said inputted personal secret access code, wherein both the private
telephone data and the public telephone data are stored in the telephone; and

an inhibitor that prevents at least one of a visual indication and an audible indication of
an incoming call when a telephone number of said incoming call is designated to be a private call
corresponding to a personal secret access code that has not been inputted into said telephone by a

current user of said telephone.

14. (Original) The telephone of claim 13, wherein said personal secret access code is inputted by manipulating a predetermined key sequence on a keypad of said telephone to initiate an operation to enter said personal secret access code.

15. (Original) The telephone of claim 13, wherein said personal secret access code is inputted by manipulating a predetermined sequence of simultaneous commands for a predetermined time period on a keypad of said telephone to initiate an operation to enter said personal secret access code.

Claim 16. (Canceled).

17. (Currently amended) A The method of claim 16, further comprising: for managing data used with a telephone, comprising:
entering a personal secret access code into the telephone by a user of the telephone;
creating a private list containing telephone data associated with the personal secret access
code entered by the user, the telephone data, composed of information related to incoming and
outgoing telephone calls, collected and accessible only after entry of the associated personal
secret access code;

creating a public list accessible to all users during operation of the telephone which
contains telephone data, composed of incoming and outgoing telephone calls, collected and
accessible prior to entering the personal secret access code, wherein the telephone numbers in

both the private list and the public list are stored in the telephone; and

preventing the user from being notified of an incoming call when the telephone number of the incoming call is designated as a private telephone number and the user that designated the incoming call as a private telephone number is not a current user of the telephone.

Claim 18. (Canceled).

19. (Currently amended) A The method of claim 18, further comprising: for managing data used with a telephone, comprising:

entering a personal secret access code into the telephone by a user of the telephone;
creating a private list containing telephone data associated with the personal secret access code entered by the user, the telephone data, composed of information related to incoming and outgoing telephone calls, collected and accessible only after entry of the associated personal secret access code;

creating a public list accessible to all users during operation of the telephone which contains telephone data, composed of incoming and outgoing telephone calls, collected and accessible prior to entering the personal secret access code, wherein the telephone numbers in both the private list and the public list are stored in the telephone;

storing a plurality of personal secret access codes, the telephone numbers in the private list being associated with various personal secret access codes, a current personal secret access code entered into the telephone by a current user being limited to accessing telephone numbers in the private list that are associated with the current personal secret access code entered by the current user; and

preventing the current user from being notified of an incoming call when the incoming call is designated as a private telephone number associated with a personal secret access code that differs from that of the current user.

Claims 20. – 24. (Canceled).
